RECI

NORRAG in brief

- NORRAG is the Global Education Centre of the Geneva Graduate Institute and a global network of more than 5,800 members for international policies and cooperation in education and training

- Established in 1977, NORRAG is now mainly supported by the Swiss Agency for Development and Cooperation (SDC). NORRAG is an associated programme of the Geneva Graduate Institute.

- Its strength is in addressing under-researched questions of quality and equity in key education and development issues, and in expanding under-represented expertise, especially from the South.

RECI

NORRAG through the years

RECI

What does NORRAG do?

- How can data and evidence support the inclusion of marginalized groups?
- How can quality, equitable education overlay and intersect with other SDGs?
- How can innovations and disruptions improve access, equity and quality in education?
- How can private sector approach[illegible] le access to quality education?

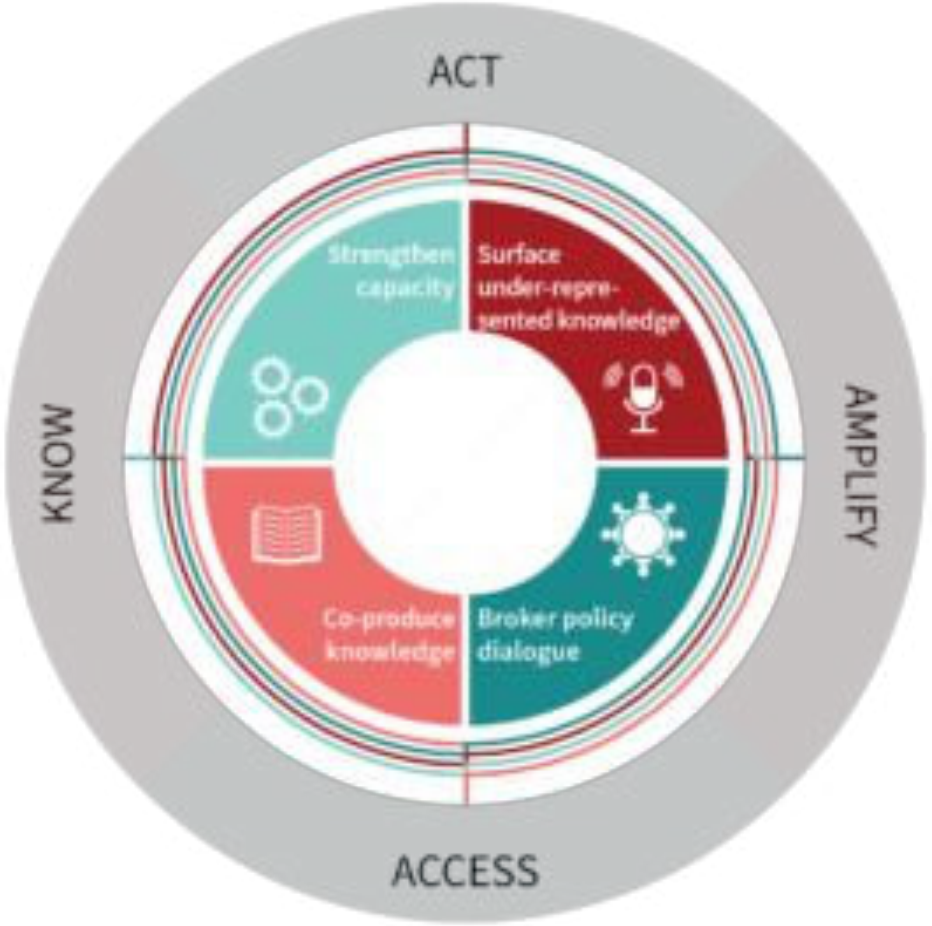
How do we work?



#TheSouthAlsoKnows

Join the movement

- South-North research collaborations are plagued by unequal relations.
- Scholars from the Global South are vastly under-represented in citations in academic articles and in university course syllabi.
- In the Global South, locally relevant research and knowledge production is frequently overlooked in favour of evidence produced in high-income countries in the Global North.
